

## Charlotte-Mecklenburg Schools Implement Adoption of Fourier's NOVA5000™ Data Loggers and Probeware

March 10, 2011 – Orland Park, IL & Armonk, NY – Fourier Education ([www.FourierEDU.com](http://www.FourierEDU.com)), a global pioneer in the science education technology industry, and It's About Time, Fourier's US distributor and a leading educational publisher of middle and high school inquiry-based science and math programs, announced today, that Charlotte-Mecklenburg Schools of North Carolina has implemented Fourier's NOVA5000™ data loggers and probeware. One of America's 25 largest school systems, Charlotte-Mecklenburg Schools is nationally known for its commitment to providing students with an advanced and enriching learning environment.

Fourier's digital science labs will be distributed to 24 high schools, as well as several middle schools throughout the district beginning the fourth quarter of the 2010-2011 school year.

"We are excited to introduce the NOVA data loggers and probeware into our science classrooms and are certain they will have a positive impact on the way in which our students relate to science. Fourier's equipment was chosen because it includes advanced data loggers and probes, as well as very user-friendly data analysis software - a total science education solution for our students and teachers," said Cindy Moss, Director of PreK-12 STEM for the Charlotte-Mecklenburg Schools.

"This adoption by Charlotte-Mecklenburg Schools will not only enhance the ability of students to experience science, but more so, give them the tools with which to apply their acquired knowledge in everyday life," said Tom Laster, President of It's About Time. "The synergy of Fourier's data loggers, probeware, data analysis software and curriculum content create a rich and comprehensive science education solution."

"We are extremely pleased to be a part of this wonderful initiative that will engage, energize and excite students in learning about science," said Ken Zwiebel, CEO of Fourier Systems. "Charlotte-Mecklenburg Schools has a national reputation for education leadership and innovation and as such, it has selected the best available science education solution for the benefit of their students for years to come."
